

Trigon Russia Top Picks Fund

Fact Sheet | June 2019

Overview

Trigon Russia Top Picks Fund invests into securities traded on the global regulated markets with a Russian market focus. The Fund's portfolio consists of approximately 25 different securities that are deemed as most attractively valued by our investment team.

When making our investments, we seek a beneficial risk-return relationship, taking into account fundamental indicators as well as opportunities based on technical analysis and the inefficiencies of the region's stock markets.

Fund Manager's Comments

Global markets rebounded in June on expectations of Fed easing. MSCI World TR and MSCI EM TR were up by +4.7% and +4.0% respectively. Russian market outperformed most of its peers with MSCI Russia TR rising +6.4% and Trigon Russia Top Picks Fund +8.3%. The Fund is up by 28.3% YTD.

Central Bank of Russia (CBR) resumed its policy easing in June, cutting the rate by 25 bps to 7.5%. Inflation continues to decline, so the CBR will likely continue cutting the rate. Russian rouble appreciated against euro by 1.5% in June coming among the leaders with +10.3% YTD performance. Overall favourable global conditions and reduced sanctions risks helped the Finance Ministry to place record high amount in government bonds. Russia's economic growth continues to be weak, reaching 0.7% YoY over 5M19, but acceleration is expected in 2H19 when government spending picks up and inflation declines. There are high hopes on National Projects becoming a driver for economic growth acceleration going forward, but the main question remains on the effectiveness of their implementation.

Looking forward, Russian market looks particularly compelling given its underperformance, value, and the current oil price level. Russian stocks retain one of the highest dividend yields and lowest P/E ratios of any major emerging market. Russian companies have substantially increased their dividend pay-outs over time from 15% to current 45-50%. MSCI Russia's estimated P/E ratio for 2019 is now 5.8x and dividend yield of 6.9%. Trigon Russia Top Picks Fund portfolio is trading at a weighted average of 6.3x expected earnings for 2019 and 8.6% dividend yield.
