Reporting period

1 January 2021 – 31 December 2021

Management Report

Trigon Russia Top Picks Fund (hereinafter: the Fund) was launched on February 15, 2006. The Fund offers to the unitholders the opportunity to indirectly invest in securities traded on the global regulated markets. The intention of the Fund is to focus investments into securities of issuers whose basic business field of activity is in Russia and other CIS countries. The objective of Trigon Russia Top Picks Fund is the long-term capital growth of the Fund's assets.

The Fund's net asset value as of December 31, 2021, was 1.5 (31.12.2020 0.99) million euros. The Fund has four classes of units. The net asset value of the Fund's A unit increased by 32.62% during the year, to 15.1717 euros as of December 31, 2021 (31.12.2020: 11.4396) euros. The net asset value of the Fund's eQ unit (eQ Russian Top Picks) was at the end of the reporting period 21.3873 (31.12.2020: 16.9670) euros, increasing by 26.05% during the year 2021. The net asset value of the Fund's C unit was 39.9489 (31.12.2020: 30.4296) euros at the end of 2021, increasing by 31.28% during the year. The net asset value of the Fund's D unit was 18.2482 at the end of 2021 (31.12.2020: 13.8434) euros, increasing by 31.82% during the year.

At the end of December 2021, equities made up 96.65% (31.12.2020: up 94.86%) of the Fund's market value. The remaining part was made up of cash at the bank and dividend receivables. As of December 31, 2021, the largest equity investments of the Fund were Gazprom 9.26%, Halyk Saving-GDR 8.11%, Globaltrans 7.97%, MD Medial Group 7.48% and Sberbank-PFD 5.87% of the market value of the Fund's assets. The Fund's investments were made into the companies of Russia and Kazakhstan.

2021 turned out to be a very successful year for Trigon Russia Top Picks Fund. The Fund went up by 32.6%, outperforming the benchmark MSCI Russia TR Index that rose by 28.0%. The Fund has generated an even more positive alpha compared to MSCI Russia 10/40 TR index that went up by 21.7%. The Fund was again one of the top performers compared to its competitors and showed the best returns over the long term. Russian equities outperformed the MSCI EM TR index that posted only a 4.9% return, while MSCI World TR was up by 30.8%. The rally in Russia has been driven by the reflation trade, high commodity prices and stable currency. Geopolitics spoiled the positive mood of the market in the beginning as well as at the end of the year. However, the boom of Russian local retail investing that started in 2020 and continued in 2021 was supporting the market with increased inflows during the corrections prompted by geopolitical risks. This means that while foreign investors were panicking and exiting the market, local investors welcomed the opportunity and were ready to pick up stocks at a discount. Russians hold most of their savings in bank deposits and cash. As access to the financial markets became much easier as well as deposit rates were not as attractive as dividend yields for many Russian solid companies, the trend of increased domestic equity market participation would continue in 2022 as well. The number of brokerage accounts opened has reached 17.4 million (12% of population) in 2021, compared to 1 million in 2015. At the end of 2021, the MOEX index traded at 5.5x the expected P/E ratio of 2022 and the expected dividend yield was 9.8%. The portfolio of Trigon Russia Top Picks Fund traded at 6.1x weighted average expected return in 2022 and the dividend yield was 10.7%.

As of the beginning of April, the expectations of corporate profits and dividends in 2022 are insignificant. Following the decision of Russian president Vladimir Putin to start a war against his neighbour and his brother on February 24, 2022, Russia's economic prospects have been halted and the future of its international position has been radically affected. Since the closing of the Russian stock exchange on February 28, trading of shares of Russian companies on the Moscow Stock Exchange has been prohibited for foreigners. As of April, there is no information on when trading will be reopened to foreign institutions. The Management Company plans to keep trading of the Fund's units suspended until it is certain that trading and settlement will operate similarly to the pre-war period and convertibility into euros will be guaranteed.

Notes to the financial statements 2021

NOTE 1. General information

Trigon Russia Top Picks Fund is a public open-end common investment fund registered in the Republic of Estonia.

The Fund is managed by AS Trigon Asset Management, with its registered office at Pärnu road 18, 10141 Tallinn. The parent company (61%) of AS Trigon Asset Management is AS Trigon Capital.

The Fund is under the supervision of the Estonian Financial Supervisory Authority.

The objective of Trigon Russia Top Picks Fund is a long-term capital growth of the Fund's assets. The Fund is investing its assets into different securities and other financial instruments abiding by the investment limits set out by the law and the Fund's rules.

These financial statements have been approved by the Management Board of the Management Company on 27.04.2022.

NOTE 2. Basis of preparation

The financial statements of Trigon Russia Top Picks Fund have been prepared following International Financial Reporting Standards as adopted by the European Union (IFRS). Financial reporting principles of investment funds are set out by the Investment Funds Act, Accounting Act and Regulation no. 8 of the Minister of Finance of February 26, 2018 "Requirements for fund reports subject to disclosure". The financial statements have been prepared to take into account the regulation of determining the net asset value of the Fund, adopted under the Investment Funds Act §54 subsection 11.

The financial statements of the Fund have been prepared in accordance with IFRS to the extent that complies with the requirements of the Investment Funds Act and Regulation no. 8 of the Minister of Finance. In case of non-compliance, the Fund has considered the requirements provided in the Investment Funds Act and Regulation no. 8 of the Minister of Finance.

NOTE 3. Accounting policies used in preparing the financial statements

The financial statements of the Fund have been prepared on a historical cost basis except for financial instruments at fair value through profit or loss, which are measured at fair value.

Foreign currency transactions and balances

Functional and presentation currency

The financial statements of Trigon Russia Top Picks Fund are presented in euros. Fund's functional currency is also the euro.

Transactions and balances in foreign currency

Transactions in currencies other than the euro are translated into euro at the last bid exchange rates of depository bank of the transactions trade date. Monetary assets and liabilities denominated in foreign

currencies at the reporting date are translated into euro at the last bid exchange rates of depository bank at the reporting date. Foreign currency gains and losses, arising on financial instruments denominated in foreign currencies, are recognised through profit or loss in the line-item *Net foreign currency profit/loss*.

Management estimates

The preparation of the financial statements in conformity with IFRS requires the management of the Fund Management Company to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, and expenses. Although judgments are based on the management's best knowledge, actual results may differ from the estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

According to the management, there have not been any events that would have affected the recognition of assets, liabilities, income, or expenses.

Financial assets and liabilities

Cash and cash equivalents, term deposits, securities and other receivables are classified as financial assets. Securities comprise financial assets referred to in the Securities Market Act § 2 (a share or other similar tradable right; debt security, convertible security or other tradable debt obligation issued, a subscription right or other tradable right, an investment fund unit; a money market instrument; derivative security or a derivative contract; a tradable depository receipt). Liabilities to Fund's Management Company, unitholders and other liabilities are classified as financial liabilities.

Classification of financial assets and financial liabilities

The Fund classifies financial assets and financial liabilities into the following categories:

- financial assets at fair value through profit or loss – equities and investment fund units as these investments do not include only principal and interest payments;
- financial assets at amortised cost – cash and cash equivalents, receivables and prepayments are recognised at amortised cost;
- financial liabilities at amortised cost – liabilities to the depository bank and Fund Management Company are recognised at amortised cost.

The Fund has at the end of the accounting period following financial assets and financial liabilities:

IFRS 9 category class (as defined in the Fund)				31.12.2021	31.12.2020
In euros					
Financial assets	Financial assets at amortised cost	Cash and cash equivalents		38,114	50,233
		Receivables and prepayments		12,254	1,535
	Financial assets at fair value through profit or loss	Mandatory measurement at fair value through profit or loss	Equities	1,453,106	954,981
Financial liabilities	Financial liabilities at amortised cost		Other financial liabilities	4,416	12,143

Recognition and derecognition

Financial assets and liabilities are recognised initially when Fund becomes a party to the contractual provisions of the instrument.

Regular way purchases and sales of financial assets are recognised on trade date, the date on which the Company commits to purchase or sell the asset.

At initial recognition, the Fund measures financial assets or liabilities at its fair value plus, in the case of a financial asset or liabilities not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial assets or emission of the financial liabilities.

Transaction costs of financial assets and liabilities carried at fair value through profit or loss are recognised as an expense in the statement of comprehensive income.

Financial assets are derecognised when the contractual rights to the cash flows of the financial assets have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership. Financial liabilities are derecognised only when they are extinguished (the contractual obligations are discharged, cancelled, or expired).

Subsequent measurement

Financial assets: debt instruments

Subsequent measurement of the debt instruments depends on the Fund's business model for managing the financial assets and the cash flow characteristics of the assets.

Fair value through profit or loss (FVTPL): assets that do not meet the criteria for amortised cost or fair value through comprehensive income are measured at fair value through profit or loss (FVTPL). A gain or loss on debt instruments that are subsequently measured at FVTPL is recognised in the statement of comprehensive income in the line-item *Net profit/loss on financial assets at fair value through profit or loss* and presented in the period in which it arises. Such fair value gain and loss includes also contractual interests earned from relevant instruments.

Amortised cost: assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in the statement of comprehensive income and presented in *Other income*. Foreign exchange gains and losses and impairment losses are presented as separate line items in the statement of comprehensive income.

Equity instruments

The Fund subsequently measures all equity investments at fair value through profit and loss. Changes in the fair value are recognised in *Net profit/loss from financial assets at fair value through profit or loss* in the statement of comprehensive income.

Impairment of financial assets

The Fund assesses on a forward-looking basis the expected credit losses (ECL) associated with its debt instruments carried at amortised cost. The impairment methodology applied depends on where there has been a significant increase in credit risk.

The measurement of the expected credit losses reflects: (i) an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes, (ii) time value of money and (iii) all reasonable and supportable information that is available without undue cost and effort at the end of each reporting period about past events, current conditions, and economic forecasts of future conditions.

For trade receivables and contract assets without a significant financing component, the Fund applies a simplified approach permitted by IFRS 9 and measures the allowance for impairment losses at expected lifetime credit losses from initial recognition of the receivable. The Fund uses a provision matrix in which allowance for impairment losses is calculated for trade receivables falling into different ageing or overdue periods.

Offsetting

Financial assets and financial liabilities are offset, and the net amount presented in the statement of financial position only when the Fund has legal right to offset and intends to settle or realise the assets and liabilities simultaneously.

Fair value measurement

Fair value is the amount of which a Fund's asset could be sold to the independent interested party on the measurement date.

The net asset value of the Fund is determined according to "Net Asset Value Calculation Rules of Investment Funds" as approved by the management board of AS Trigon Asset Management. These rules determine the valuation of the securities traded on a regulated market, securities not traded on a regulated market and other financial assets and financial liabilities of the Fund.

The Fund recognises all investments into securities at fair value through profit or loss except these investments whose fair value cannot be determined. The financial statements of the Fund for the year 2021 have been prepared under the standard IFRS 13 "Fair Value Measurement" where the financial assets and liabilities traded on a regulated market are determined at the market close price if it remains within the bid-ask spread. If the close price does not fall in this spread, the Management Company will determine the value within the bid-ask spread, which most accurately reflects the fair value of specific security.

The fair value of the security (other than debt security) traded on a regulated market is determined based on the closing price of that regulated market on the valuation date. If the closing price is not available, the mid-market price of the regulated market on the valuation date is applied. If the mid-market price is also unavailable, the latest bid price of the regulated market on the valuation date is applied. In case that no bid price is available, the latest share price determined in the manner described above is applied.

The value of debt security traded on a regulated market is determined by applying the average ask and bid price $((ask+bid)/2)$ given by sources of quotes accepted by the currently used information provider on the valuation date (mid-market price). If the mid-market price is not available, the closing price on the valuation date is applied. If no closing price is available, the mid-market price of the last banking day is applied.

Valuation of security, which is not traded on a regulated market, takes place, above all, by applying the valuation models set out by IFRS. Fair value is the probable selling price of the security, which is determined prudently, in good faith and bearing in mind the best interests of unitholders and at which independent and experienced parties would agree to conclude a transaction.

The value of a share of a unit of an investment fund traded on a regulated market is determined as the value of the security traded on a regulated market. The value of a unit of a common fund not traded on a regulated market is determined based on the latest known redemption or repurchasing price or, if such price is unavailable, based on the net asset value of the fund.

If the fair value of the assets cannot be reliably determined, then they can be recognised at acquisition cost or the fair value will be determined by the management of Fund Management Company using the valuation methods. The valuation methods used by the Management Company include recent arm's length transactions between independent parties, references to other similar instruments, discounted cash flow analyses and option pricing models and other methods based on market information as much as possible and as little as possible on internal sources.

Recognition of revenue

Interest

Interest income and expenses are recognised in the statement of comprehensive income using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash flows through the expected life of the financial instrument to the net carrying amount of the financial asset. When calculating the effective interest rate, the Fund estimates cash flows considering all contractual terms of the financial instrument but does not consider future credit losses. Interest received or receivable is recorded in the statement of comprehensive income in the line of *Interest income*.

Dividends

Dividend income is recognised in the statement of comprehensive income on the date when the right to receive payment is established. This is usually the ex-dividend date. Dividend income from equities designated as at fair value through profit or loss is recognised as a separate line-item *Dividend income*.

Gain/loss on financial assets

Unrealised gain/loss from revaluation of financial assets at fair value through profit or loss includes all fair value changes but excludes interest and dividend income.

Realised gain/loss on financial assets at fair value through profit or loss is calculated using the FIFO method (*first-in, first-out*) which means that the chronological order of purchases of securities is taken into account when calculating gains/losses from the securities.

Net profit/loss from revaluation of financial assets is recognised in the statement of comprehensive income in the line-item *Net profit/loss on financial assets at fair value through profit or loss*.

Service and commission expenses

Transaction fees arising in acquiring and disposing of securities are recognised on the accrual basis in the statement of comprehensive income in the line-item Transaction costs and paid once a month. Commissions arising in acquiring and disposing of securities are included within the cost of securities.

Cash and cash equivalents

Cash and cash equivalents include the balances of demand deposits at the bank and overnight deposits. Interest receivable on overnight deposits is recognised in the statement of financial position in the line-item Receivables and prepayments and the statement of comprehensive income in the line-item *Interest income*.

Term deposits

Term deposits include deposits held at credit institutions. According to the Investment Fund Act, the open-ended public fund may invest into term deposits with a maturity of up to 12 months. Interest receivable on term deposits is recognised in the statement of financial position in the line-item Receivables and prepayments and the statement of comprehensive income in the line-item *Interest income*.

Fees and expenses

Income and expenses are reported on an accrual basis.

Recognition of management and performance fees

Management fee rates paid to the Fund Management Company are:

- a. A units: 1.0% of the Fund's assets per annum;
- b. eQ units: 2.0% of the Fund's assets per annum;
- c. C units: 2.0% of the Fund's assets per annum;
- d. D units: 0.75% of the Fund's assets per annum.

The management fee is deducted daily from the Fund's assets and paid in the month following the calculation.

In addition, the Management Company has the right to receive a performance fee based on the performance of eQ units and D units.

The Management Company is entitled to the performance fee if eQ unit's net asset value exceeds its highest month-end net asset value of the respective unit to which the required minimum return of 3.5% on

annual basis has been added. The performance fee rate is no more than 15% of the net asset value increase over the highest month-end net asset value of the respective unit to which the required minimum return of 3.5% on annual basis has been added. The performance fee is revalued daily on a 365-year basis and is paid out at the end of each month during the following month. The Management Board of the Management Company may decide to use a lower rate of management and performance fees.

Furthermore, the Management Company has the right to receive a performance fee based on the performance of a D unit. The performance fee is not more than 20% of the D Unit performance that exceeds the performance of the benchmark index MSCI Russia Daily Net TR EUR – i.e., 20% of the Alpha generated YTD. For calculating the performance fee, a High-Water Mark ('HWM') principle is applied. The HWM principle in the Fund rules context means that after the performance fee has been paid out for the first time during a calendar year, additional performance fee accruals during that year will be made only if additional Alpha is generated since the last month-end when the performance fee was paid out. In that case, the performance fee is charged from the additional Alpha. The performance fee is reassessed daily and paid out at the end of each month during the following month if the D share performance during the month was positive.

The Management Board of the Management Company may decide to use a lower rate of management and performance fees.

Recognition of depositary and other fees

The maximum annual rate of the depositary fee is 0.03-0.35% of the Fund's assets per annum, but not less than 9 000 euros per year. The above-mentioned depositary fee rates do not include VAT. The depositary fee is calculated daily from the Fund's assets and is paid in the month following the calculation. Depositary fee in the statement of comprehensive income also includes administration (Fund accounting and net asset value calculation), registry and sub-custodian fees that are paid to the depositary bank in the month/quarter following the calculation.

The Fund shall also pay other expenses related to the Fund's management, safekeeping of the Fund's assets and transaction costs, such as fees to intermediaries, interest expenses, payment and service fees, Fund's auditing expenses payable to the service providers.

Fund units

The Fund has four classes of units (hereinafter: "A", "eQ", "C", "D"). Different terms apply to the units depending on their class, such as subscription and redemption fees (see below).

At the request of the unitholder, the Management Company shall redeem the units and the unitholders have the right to redeem units and receive a monetary payment daily following the Fund Rules. Consequently, the issued Fund units are classified as financial liability. Units are recognised in the statement of financial position at redemption value, i.e., the amount that should be paid for at the balance sheet date if the unitholder uses his right to redeem the units. The net asset value of the unit is determined by dividing that class' total net asset value by that class' number of units issued and not redeemed as at the point of valuation. For subscription or redemption, the net asset value of the units is based on the Fund's net asset value which is derived by measuring the Fund's investments fair value using the closing price before the transaction date.

The issue of units is arranged by the Management Company according to the rules set out in legislation. The issuing of units is not restricted by time or volume.

C unit was launched on April 15, 2009, and D unit on August 31, 2011.

A unit may be issued only upon a monetary payment into the assets of the Fund corresponding to the number of respective units to be issued and at the unit's net asset value. When issuing a fraction of unit an

amount corresponding to the fraction of the respective unit's net asset value must be paid into the assets of the Fund.

The unit's issue price is the net asset value of the unit of the respective class calculated on the following banking day from the banking day the purchase order was received. The issue price may also include an issue fee or intermediary's service fee.

The issue fee of a unit is:

- a) for A units there is no issue fee;
- b) for eQ units there is no issue fee. A unitholder shall bear the fee payable to the intermediary which is 1.0% of the subscription amount;
- c) for C units there is no issue fee;
- d) for D units there is no issue fee.

The Management Company has the right to charge a lower issue fee on a mutual agreement.

A unit is deemed to be issued at the time of making the respective entry in the registry of units.

The unit's redemption price is the net asset value of the unit of the respective class calculated on the following banking day from the banking day the sale order was received. The redemption price may also include a redemption fee or intermediary's transaction cost.

The redemption fee of a unit is:

- a) for A units there is no redemption fee;
- b) for eQ units there is no redemption fee. The unitholder shall bear the intermediary's transaction cost of 20 euro per transaction;
- c) for C units there is no redemption fee;
- d) for D units there is no redemption fee.

The Fund Management Company has the right to charge a lower redemption fee on a mutual agreement.

Upon redemption of a unit, a monetary payment shall be made from the assets of the Fund to the current account linked to the Unit holder's securities account. Payments shall be made in the order that the redemption requests were submitted. The payment may be postponed following the law and Fund Rules. The unit shall be considered as redeemed from the time of making a respective entry in the registry of units.

Implementation of new and amended standards and interpretations

Certain new International Financial Reporting Standards, also amendments and interpretations to existing standards have been published by the time of compiling these consolidated financial statements which become mandatory for the Fund's accounting periods beginning on January 1, 2021, and which the Fund did not adopt early.

New or amended standards or interpretations that became effective for the reporting period beginning on January 1, 2021, are not expected to have a significant impact on the Fund.

New standards, interpretations and their amendments

New or amended standards and interpretations have been issued and will become mandatory for the Fund from January 1, 2022 or later and which the Fund has not applied early.

Amendments to IAS 1 and IFRS Practise Statement 2: "Disclosure of accounting policies" (effective for annual periods beginning on or after January 1, 2023; not yet adopted by the EU). IAS 1 was amended to require companies to disclose their material accounting policy information rather than their significant accounting policies. The amendment provided the definition of material accounting policy information. The

amendment also clarified that accounting policy information is expected to be material if, without it, the users of the financial statements would be unable to understand other material information in the financial statements. The amendment provided illustrative examples of accounting policy information that is likely to be considered material to the entity's financial statements. Further, the amendment to IAS 1 clarified that immaterial accounting policy information need not be disclosed. However, if it is disclosed, it should not obscure material accounting policy information. To support this amendment, IFRS Practice Statement 2, 'Making Materiality Judgements' was also amended to provide guidance on how to apply the concept of materiality to accounting policy disclosures. The Management Company assesses the potential impact on the Fund's financial statements.

Amendments to IAS 8: "Definition of Accounting Estimates" (effective for annual periods beginning on or after January 1, 2023; not yet adopted by the EU). The amendment to IAS 8 clarifies how entities should distinguish changes in accounting policies from changes in accounting estimates. The Management Company assesses the potential impact on the Fund's financial statements.

NOTE 4. Risk management

The Fund invests its assets according to the Fund's investment objectives in various securities, derivatives, deposits.

Various risks arise from investing in funds that may affect the return of the investment. Past returns of Funds are not indicative of future returns of the Funds. The net asset value of the unit may fluctuate as a result of the Funds' investment policy. Funds may generate both profits and losses. Investors should consider that there is no guarantee for a positive return on their investments into the Fund. The shorter the duration of the investment, the more probable a loss is.

The Fund Manager invests Fund assets in accordance with the Fund's investment objectives, in consideration of the restrictions imposed by the Investment Funds Act and Fund Rules. Adherence to investment limits is monitored daily, in case the investment restrictions are exceeded, the fund manager shall take measures to liquidate them.

As a result of the fund's investment policy, the Fund is subject to the following risks:

- market risk
- credit risk
- liquidity and capital risk

Market disruptions associated with the COVID-19 pandemic have had a global impact, and uncertainty exists as to the long-term implications. Such disruptions can adversely affect the assets of the Fund and thus the Fund's performance.

Other key risks and their descriptions are provided in the Fund's prospectus.

Market risk

Market risk is a possibility that the volatility of market prices of securities or other assets (share prices, foreign currency rates, interest rates) may decrease the value of the Fund's assets. The higher the volatility of prices, the higher the risk of potential loss from the investment is. At the same time, the more volatile the investment is the higher the profit may be.

To mitigate market risk, investments are diversified between various issuers, fields of activities, countries and regions and derivatives may be used.

The events of the securities markets are monitored daily. In the event of changes in market conditions, changes may be made to investments, such as reducing or increasing the weight of equities in the total investment portfolio of the Fund.

The Fund's investments as at the reporting date are provided in the statement of the investments.

Currency risk

Fund's functional currency is the euro. In addition to the investments and assets denominated in euro, the Fund has exposures also in other currencies. As a result, the Fund is exposed to the risk that the weakening of other currencies against the Fund's functional currency may unfavourably affect the Fund's net assets. To mitigate currency risk, the Fund may use derivative instruments. This is done mainly through OTC (over the counter) swaps and forwards. OTC derivatives expose the Fund to the risk that the counterparty of that trade may default on their obligations to the Fund. To mitigate that risk the Fund is using reliable counterparties.

As of 31.12.2020 and 31.12.2021, the Fund did not have exposures to the derivative instruments.

If foreign currencies' value compared to euro would fluctuate +/- 10%, then at the balance sheet date the effect of the open currency position on the profit/loss of the Fund would be +/- 148 thousand (2020: 99 thousand) euros.

The next table provides an overview of the assets and liabilities of the Fund at the reporting date based on currencies:

In euros as at 31.12.2021	USD	GBP	RUB	EUR	TOTAL
ASSETS					
Financial assets at fair value through profit or loss	1,339,527	113,579	0	0	1,453,106
Cash and cash equivalents	12,874	0	0	25,240	38,114
Receivable and prepayments	3,697	0	8,557	0	12,254
Total assets	1,356,098	113,579	8,557	25,240	1,503,474
LIABILITIES					
Other financial liabilities	0	0	0	4,416	4,416
Fund's net asset value (NAV)	0	0	0	1,499,058	1,499,058
Total liabilities	0	0	0	1,503,474	1,503,474
Open currency position	1,425,619	44,058	8,557	-1,478,234	

In euros as at 31.12.2020	USD	GBP	RUB	EUR	KOKKU
ASSETS					
Financial assets at fair value through profit or loss	910,923	44,058	0	0	954,981
Cash and cash equivalents	32,764	0	1,101	16,368	50,233
Receivable and prepayments	977	0	558	0	1,535
Total assets	944,664	44,058	1,659	16,368	1,006,749
LIABILITIES					
Other financial liabilities	0	0	0	12,143	12,143
Fund's net asset value (NAV)	0	0	0	994,606	994,606
Total liabilities	0	0	0	1,006,749	1,006,749
Open currency position	944,664	44,058	1,659	-990,381	

Equity price risk

Equity price risk is the risk that the fair value of financial instruments fluctuates due to changes in the market prices (except for those changes related to the interest rates and foreign currency rate risks).

Fluctuations of market prices may be associated with the particular issuer or the overall equity market conditions which often affects all shares traded on the stock markets.

The Fund's investments at 31.12.2021 and 31.12.2020 mainly consist of equity investments and are most sensitive to fluctuations of the stock market. If Fund's equity investments would drop/rise +/-10% at the end of the accounting period, the effect on the Fund's results would be following:

In euros	31.12.2021	31.12.2020
Change +/- 10%		
Equity securities	+/- 145,311	+/- 95,498

The Fund's investments are monitored for their concentration in industries and geographic regions. If the concentration in a specific industry, country or region is high then in case of deterioration of the situation of the respective industry, country or region the risk to the Fund's investments may increase. To minimize that risk the Fund's investments are diversified between various industries and countries.

Risk concentration

At the reporting date the Fund's investments were diversified between the following industries:

Industry	31.12.2021	31.12.2020
Raw materials	23.46%	28.08%
Energy	22.68%	21.46%
Finance	13.98%	3.39%
Consumer discretionary and staples	11.81%	9.41%
Industrial	7.97%	6.38%
Health Care	7.48%	7.88%
Utilities	3.93%	4.62%
Holding	3.21%	4.67%
Real estate	2.13%	4.30%
Telecommunication	0.00%	4.67%
Cash	3.35%	5.14%

The table below sets out the distribution of the Fund investments based on listing on regulated markets:

In euros	Note	31.12.2021	31.12.2020
Securities listed on regulated markets			
Equity securities	Note 5, 6	1,453,106	954,981
Total investments		1,453,106	954,981

The Management Company is monitoring investment restrictions set by Investment Funds Act, Fund Rules and also internally set limits on a daily basis. The Fund had no investment limits breaches as of the reporting date.

Interest rate risk

Interest rate risk is based on the possibility that interest rate, yield curve or interest rate volatility will change unfavourably.

Since as of 31.12.2021 or 31.12.2020, the Fund does not have any substantial interest carrying assets or liabilities, funds exposure to interest rate risk is marginal.

Credit risk

Credit risk may arise from the nature and success of the issuer's business that may significantly affect the prices of the issuer's securities and create a situation when the issuer fails to fulfil the obligations taken at issuance of the securities (perform redemption and interest payments).

Realization of credit risk is more probable with debt securities and term deposits.

To mitigate credit risk, the Management Company analyses and monitors the strength and reliability of issuers' businesses and diversifies investments in different issuers.

Credit risk related to balances due from brokers (pending security transactions) is considered to be low because to minimize that risk the Fund prefers markets where DVP (i.e., delivery-versus-payment) principles are adhered to and use reliable and known counterparties for trading.

The Fund's cash and cash equivalents are held with Fund's depository bank AS Swedbank, whose parent bank is rated as Aa3 (Moody's).

Management has assessed the ECL from credit institutions' exposures and due to the strong ratings of corresponding parties, their financial position and also due to the positive economic outlook, the Fund's credit institutions' exposures do not need to be significantly impaired as at the balance sheet date.

Receivables and prepayments include dividend receivables and securities transactions pending on the value date that have been collected by the time of compiling the financial statements. The Management estimates that the expected credit loss for these receivables is immaterial.

Liquidity and capital risk

Liquidity risk is the risk that due to the low liquidity of markets the Fund is unable to purchase or sell securities at a fair value and as a result of that, the Fund cannot observe its investment policy and objectives. This may lead to the situation where the Fund will encounter difficulties in fulfilling payments for redemptions on time, especially when many large redemption orders have accumulated at the same time.

Liquidity risk may also arise as a result of the increase of market risk and credit risk during a difficult market situation, for example during a recession.

Large redemption orders during the times when market liquidity is low may have a negative impact on the remaining investors in the Fund. On the demand of large redemption orders, the Fund follows the laws and Fund Rules protecting the interests of the remaining unitholders.

The Management Company may suspend redeeming units under the conditions and according to the procedures provided for in the Investment Funds Act, incl. suspending the redemption of units for up to three months if the cash balances in the accounts of the Fund is insufficient for the payment of the redemption price for the units, if the regular management of the Fund may be harmed by the payment of the price, if the securities or other assets of the Fund cannot be promptly sold or if the interests of other unit-holders would be materially harmed thereby.

Daily, the Fund manager monitors the Fund's necessary liquidity to meet its liabilities, including estimated payments for purchases of securities and redemptions of units. If necessary, the Fund manager takes measures to settle the Fund's liabilities, for instance, uses overdraft or sells liquid assets.

To mitigate liquidity risk, the Fund diversifies investments between issuers and part of the Fund's assets is invested in securities with high liquidity.

The majority of the Fund's investments are publicly traded and liquid, they can be quickly realized and therefore the Fund's overall liquidity risk is not high.

The liquidity table below presents the potential realisation period of the Fund's assets (assuming that the Fund can take up to 50% of daily traded volume):

In euros as at 31.12.2021	1-3 banking days	4-5 banking days	more than 5 banking days
Equities	1,453,106	0	0
Cash and cash equivalents	38,114	0	0
Receivables and prepayments	2,026	0	10,228
Total	1,493,246	0	10,228

In euros as at 31.12.2020	1-3 banking days	4-5 banking days	more than 5 banking days
Equities	954,981	0	0
Cash and cash equivalents	50,233	0	0
Receivables and prepayments	0	977	558
Total	1,005,214	977	558

As of 31.12.2021, there were no assets in the Fund for which the total realisation of the position will take more than 5 banking days (assuming that the Fund can take up to 50% of daily traded volume).

Considering alternative transaction methods, including block transactions, there are no illiquid equities in the Fund which realization period exceeds 14 days.

The following table gives an overview of the timely fulfilment of the obligations of the Fund (considering that 5% of the net value of the assets belonging to the unitholders is redeemable after 5 days during one month and 95% - during 1-3 months):

In euros as at 31.12.2021	Less than 5 banking days	5 banking days to 1 month	1-3 months	TOTAL
Payables to Management Company	1,965	0	0	1,965
Other liabilities	0	0	2,451	2,451
Fund's net assets attributable to holders of redeemable units	0	74,953	1,424,105	1,499,058
Total	1,965	74,953	1,426,556	1,503,474

In euros as at 31.12.2020	Less than 5 banking days	5 banking days to 1 month	1-3 months	TOTAL
Payables to Management Company	2,625	0	0	2,625
Payables to depository bank	3,149	0	0	3,149
Other liabilities	2,949	0	3,420	6,369
Fund's net assets attributable to holders of redeemable units	0	49,730	944,876	994,606
Total	8,723	49,730	948,296	1,006,749

The Fund Manager monitors the Fund's liquidity daily and ensures that there are enough monetary assets to fulfil Fund's liabilities. As of 31.12.2020 and 31.12.2021 Fund's liquidity assets exceed Fund's short-term liabilities.

NOTE 5. Valuation of financial instruments

The Fund recognises financial assets at fair value through profit or loss. Financial investments are categorized into 3 levels depending on their revaluation:

Level 1: Financial investments valued based on unadjusted quoted price from the stock market or other active markets.

Level 2: Financial investments valued using valuation methods based on observable inputs. For example, this category includes investments measured using quoted prices in active markets for similar instruments or financial instruments that are valued at quoted price in active markets but have low liquidity.

Level 3: Financial investments valued using valuation methods based on unobservable inputs.

The table below categorises financial instruments measured at fair value in 3 levels of fair value hierarchy:

In euros as at 31.12.2021

	Note	Level 1	Level 2	Level 3
Equity securities	Note 4, 6	1,453,106	0	0
Total		1,453,106	0	0

In euros as at 31.12.2020

	Note	Level 1	Level 2	Level 3
Equity securities	Note 4, 6	954,981	0	0
Total		954,981	0	0

The fair value of the assets recognized at amortized cost - cash and cash equivalents and receivables - at the balance sheet date does not differ from their amortised cost as these financial assets are very short-term.

NOTE 6. Financial assets at fair value through profit or loss

In euros

	Note	31.12.2021	31.12.2020
Equities	Note 4, 5	1,453,106	954,981
Total		1,453,106	954,981

NOTE 7. Receivables and prepayments

In euros

	31.12.2021	31.12.2020
Dividend receivable	12,254	1,535
Total	12,254	1,535

NOTE 8. Other financial liabilities

In euros

	Note	31.12.2021	31.12.2020
Payables to Management Company	Note 11	1,965	2,625
Payables to the depositary bank		0	3,149
Other liabilities		2,451	6,369
Total		4,416	12,143

NOTE 9. Net profit/loss on financial assets at fair value through profit or loss

In euros

	01.01-31.12.2021	01.01-31.12.2020
Equities and units		
Realised gain	220,377	14,330
Unrealised gain/loss	60,950	-140,129
Total	281,327	-125,799

In 2021, the Fund earned dividend income in the amount of 83,489 (2020: 232,624) euros.

NOTE 10. Comparative analysis of the net asset value

In euros

Year	Fund's net asset value	Net asset value of Fund unit			
		A unit	eQ unit (eQ Russian Top Picks unit)	C unit	D unit
15.02.2006	-	6.3912	9.9993	-	-
31.12.2006	5,845,026	7.3149	11.4520	-	-
31.12.2007	25,919,012	8.9466	13.9723	-	-
31.12.2008	1,214,165	3.2537	5.0782	-	-
31.12.2009	1,875,454	5.3113	8.2893	15.6999	-
31.12.2010	3,667,792	9.0302	14.0780	24.7783	-
31.12.2011	6,534,039	6.9187	10.7867	18.9016	9.1686
31.12.2012	9,796,134	7.5982	11.8460	20.7575	10.0577
31.12.2013	7,822,598	6.9308	10.8047	18.9327	9.1736
31.12.2014	1,540,156	3.6515	5.6924	9.9750	4.8327
31.12.2015	4,798,052	5.1752	8.0674	14.1364	6.6921
31.12.2016	25,196,133	9.1022	14.1897	24.8625	11.5227
31.12.2017	14,509,200	8.8090	13.7329	24.0644	10.9971

31.12.2019	4,257,394	11.1331	16.8258	29.9128	14.0080
31.12.2020	994,606	11.4396	16.9670	30.4296	13.8434
31.12.2021	1,499,058	15.1717	21.3873	39.9489	18.2482

NOTE 11. Related parties

For the purposes of these financial statements, related parties are considered to be AS Trigon Asset Management (Fund Management Company), AS Trigon Capital (the majority shareholder of the Fund Management Company), OÜ Fero Invest (shareholder with significant influence), companies belonging to the same consolidation group as the Fund Management Company, other funds managed by AS Trigon Asset Management, Fund Management Company's beneficial owners and members of the Management Board.

Trigon Russia Top Picks Fund paid to the Fund Management Company management fees during the period 01.01-31.12.2021 in the total amount of 20,332 (2020: 60,723) euros and performance fees in the total amount of 4,201 (01.01-31.12.2020: 2,918) euros. As of 31.12.2021, the amount owed to Fund Management Company was 1,965 (31.12.2020: 2,625) euros (see note 8). No transactions with other funds managed by AS Trigon Asset Management were made in 2021 and 2020.

NOTE 12. Fund Management Company's remuneration principles

The members of the Management Board and employees of Trigon Asset Management receive a fixed remuneration monthly. In addition, employees responsible for the Fund distribution can also receive variable remuneration. Fixed remuneration is the main part of the employees' remuneration which is based on the fixed salary agreement. Fixed remuneration is set on an individual basis with consideration to the role of the individual, including responsibility and position profile, achievements, qualification and expertise and market standards in respect of the relevant positions. Variable remuneration depends on the performance of the individual and the overall results of the company. Variable remuneration is paid in bonuses. Such bonuses are paid in accordance with the company results, evaluated each time and not defined as a fixed amount. When deciding on remuneration practices for employees the Fund Management Company follows a principle of a proper balance. The Fund Management Company has not applied any termination benefits or non-monetary compensations.

The average number of employees (including Management Board members) in Trigon Asset Management in the reporting year was 10 (2020: 11). The total amount of fixed salary (incl. taxes) paid to employees was 507,932 (2020: 597,325) euros. The total amount of fixed salary (incl. taxes) paid to the members of the Management Board during the reporting period was 140,703 (2020: 118,641) euros. Members of the

Supervisory Board did not receive any remuneration for participating in the work of the board. Bonuses (incl. taxes) paid to the employees directly involved in the Fund distribution process during the reporting period were 10,000 (2020: 48,591) euros.

NOTE 13. Events Occurring After the Balance Sheet Date

In connection with the war started by Russia against Ukraine on February 24, 2022 and the subsequent sanctions imposed on Russia, the prices of Russian assets fell significantly in the first days of the war. On February 25, we decided to suspend the execution of sales orders due to the lack of certainty regarding the possibility of concluding transactions in the following days and also regarding the receipt of money. Trading on the Moscow Stock Exchange was suspended on February 28, and on the same day we also stopped settling purchase orders for fund units. On March 24, trading on the Moscow Stock Exchange was resumed, but only for Russian citizens and institutions.

The latest information on unit values was published on February 25, 2022, and the table below illustrates the value of each unit as of that date and as of December 31, 2021:

	Unit's net asset value 31.12.2021	Unit's net asset value 25.02.2022	Change (%)
A unit	15.1717	8.7476	-42.3%
eQ unit	21.3873	12.3112	-42.4%
C unit	39.9489	22.9964	-42.4%
D unit	18.2482	10.5257	-42.3%

At the time of compiling the annual report, it is not possible to assess the ultimate impact of the military action and the above restrictions on investments in Russia.

This is a non-adjusting event after the balance sheet date and has no effect on the recognition and measurement of assets and liabilities in the 2021 financial statements. As of the date of approval of the Fund's 2021 annual report, trading of the Fund's units is continued to be closed and the calculation of the net asset value of the Fund's units has been suspended. As of the beginning of April, there is no information on when and in what form foreign investors will be restored access to the Moscow Stock Exchange and Russian shares on the London Stock Exchange. Even if the stock exchange opens, it may be difficult at first to convert currency from rubles to euros. The Management Company plans to keep trading of the Fund's units suspended until it is certain that trading and settlement will operate similarly to the pre-war period and convertibility into euros will be guaranteed.

Independent Auditor's Report

To the Shareholders of Trigon Russia Top Picks Fund

Our opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Trigon Russia Top Picks Fund (*the Fund*) managed by AS Trigon Asset Management (*the Management Company*) as at 31 December 2021, and the Fund's financial performance and cash flows for the year then ended in accordance with the Investment Funds Act.

What we have audited

The Fund's financial statements comprise:

- the statement of financial position as at 31 December 2021;
- the statement of comprehensive income for the year then ended;
- the statement of changes in the Fund's Net Asset Value for the year then ended;
- the statement of cash flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the Fund's financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Management Company and the Fund in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code). We have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

Emphasis of matter – Events after the balance sheet date

We draw your attention to the note to the financial statements, which discloses the effects of the conflict between Ukraine and Russia on the Fund's operations. Our opinion is not modified in respect of this matter.

This version of our report is a translation from the original, which was prepared in Estonian. All possible care has been taken to ensure that the translation is an accurate representation of the original. However, in all matters of interpretation of information, views or opinions, the original language version of our report takes precedence over this translation.

Other information

The Management Company's Management Board is responsible for the other information. The other information comprises the Short Description and Contact Details of Trigon Russia Top Picks Fund, the Management Report, the Statement of Transaction and Commission Fees and a Statement of Investments (but does not include the financial statements and our auditor's report thereon).

Our opinion on the Fund's financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Fund's financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the Fund's financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management Company's Management Board and those charged with governance for the Fund's financial statements

The Management Company's Management Board is responsible for the preparation and fair presentation of the Fund's financial statements in accordance with the Investment Funds Act and for such internal control as the Management Company's Management Board determines is necessary to enable the preparation of the Fund's financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the Fund's financial statements, the Management Company's Management Board is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management Company's Management Board either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's responsibilities for the audit of the Fund's financial statements

Our objectives are to obtain reasonable assurance about whether the Fund's financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial statements of the Fund.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Fund's financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Translation note:

This version of our report is a translation from the original, which was prepared in Estonian. All possible care has been taken to ensure that the translation is an accurate representation of the original. However, in all matters of interpretation of information, views or opinions, the original language version of our report takes precedence over this translation.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management Company's Management Board.
- Conclude on the appropriateness of the Management Company's Management Board's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Fund's financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Fund's financial statements, including the disclosures, and whether the Fund's financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

AS PricewaterhouseCoopers

/signed/

Verner Uibo
Auditor's certificate no.568

28 April 2022
Tallinn, Estonia
